SARLU

A MEMBER OF THE GROUP

QI GROUP

PRESENTATION OF THE COMPANY

MADACAN is a joint venture company located in the main port city of Toamasina in Madagascar. Established in 2009, the company's mandate is to provide high quality industrial products to the mining, oil and gas, energy and agribusiness industries in Madagascar. MADACAN provides products and services that make your plant, facilities and equipment more profitable and efficient.

The MADACAN sales and service group, with more than 1,000 employees, has extensive experience in the supply of valves, seals, expansion joints, pipes and fittings, control instruments, pneumatic and hydraulic products, automation. Services such as industrial design and manufacturing, rubber lining, splicing and repairing conveyor belts, boilers and refractory linings, scaffolding, sandblasting, painting, insulation and coating are also offered. We look forward to establishing a long-term supply relationship with you by offering solutions, more than products.

We have a well-trained, locally recruited staff capable of providing an immediate response to your industrial needs. We can provide ready-to-use solutions 7 days a week, 24 hours a day.

MADACAN staff can provide assistance in English, French or Malagasy.

Products :

- ▶ Filters: hydraulic, air, water, fuel, etc.
- ▶ Cylinders.
- ▶ Pumps and hydraulic motors.
- ▶ Compressors.
- ▶ Electric motors and equipment.
- ▶ Supply of cam profile gaskets.
- ▶ Nuts and bolts: Carbon steel and stainless steel.
- ▶ SWAGELOK: Fittings, valves, tubes, instruments and hoses.
- ▶ Mechanical seals.
- ▶ Expansion joints for piping and pipes.
- ▶ Piping, flanges and fittings made of industrial grade plastics, carbon steel and stainless steel.

Differentiators :

- ▶ Stores and equipment available and operational in Antananarivo and Toamasina, Madagascar.
- ▶ 3 spiral wound machines and 2 joint cutting machines for the manufacture and repair of gaskets with diameters from 12 mm to 1500 mm and all metal windings.
- ▶ 1 cutting machine for threaded rods, chamfering and marking.
- ▶ 3 ALMEX vulcanization presses for fabric and steel reinforced conveyor belts up to 1800 mm wide.
- ▶ 1 autoclave for the rubber coating of parts up to 1500 mm in diameter and 6000 mm long.
- ▶ Pots, sandblasting and painting equipment.
- ▶ Welding and cutting Equipment.
- ▶ Complete equipment for cutting and crimping hydraulic hoses.
- ▶ Various vehicles and lifting equipment.
- ▶ A set of core drilling equipment.
- ▶ Insulation equipment: sheet metal cutting and forming equipment and tools.
- ▶ Stock of material available for all the disciplines mentioned above.
- ▶ Staff: more than 1,000 skilled employees in all the above-mentioned disciplines: nationals, Canadians, South Africans and Filipinos.
- ▶ We offer our customers 24/7 service.
- ▶ MADACAN has branches in South Africa, North America and Asia within the QI group, which can attend inquiries 24/7 for emergency supply.

Services:

- ▶ Hydraulics, Pneumatics and Industrial Automation.
- ▶ Identification and construction of metal and rubber hoses.
- ▶ Spiral wound gaskets: fabrication, rewinding.
- ▶ Fabrication of flat gaskets.
- ▶ Supply, cutting and chamfering of Imperial and metric threaded rods, washers.
- ▶ PEXGOL: cross-linked polyethylene (PEX) pipes and fittings, supply and installation.
- ▶ Rubber coating service.
- ▶ Maintenance of marine equipment.
- ▶ Conveyor belts, inspection, repair, installation and supply.
- ▶ Boilers, refractory and acid brick linings: repair, supply and installation.
- ▶ Industrial mechanics: design study, manufacturing, onsite maintenance.
- ▶ Protection against corrosion: surface preparation, sandblasting, painting and special coatings (arc spray and Polyurea spraying).
- ▶ Industrial scaffolding: custom design, equipment rental, installation, inspection and dismantling.
- ▶ Thermal Insulation.
- ▶ Industrial electricity: supply of equipment and installation.
- ▶ Industrial valves of all types and all configuration.
- ▶ Training center for technical skills and HSE.
- ▶ Metal structures and civil engineering: design and construction.
